## APPLICATIONS

Lake Colourant WSP is a concentrated blend of dry-flowable colourants in easy-to-use, pre-measured Water Soluble Packets (WSP). Lake Colourant WSP transforms pale, dirty, off-coloured water into natural blue. Lake Colourant WSP may be used to colour ornamental lakes, ponds, fisheries, fountains and other contained bodies of water. Water treated with Lake Colourant WSP may be used for irrigation, but not for direct human consumption. Swimming and other recreational sports are approved during and following use of this product. Fish, waterfowl or animals are not harmed by normal use of this product.

## DIRECTIONS

Determine the volume of water to be treated and consult the Suggested Use Rates chart, to determine the number of WSPs to use. The volume of water within a lake, pond or other water body to be treated can be calculated using the following formula:

$$\text{Volume} = \text{Length} \times \text{Width} \times \text{Average Depth}$$

One WSP is suggested for 1,200m<sup>3</sup> or 1,200kL of water. If a darker or lighter colour is desired, vary the rate accordingly. Toss or drop the correct number of packets into the water. Evenly spaced packets aid in quicker, more even coverage.

| AREA TO BE TREATED  | VOLUME TO BE TREATED | RATE OF PACKETS |
|---------------------|----------------------|-----------------|
| 1,200m <sup>3</sup> | 1,200kL              | 1 WSP           |
| 4,800m <sup>3</sup> | 4,800kL              | 4 WSP           |
| 9,600m <sup>3</sup> | 9,600kL              | 8 WSP           |

## SPECIAL INSTRUCTIONS

### DO NOT FREEZE.

Store in cool, dry area above 4°C. Water soluble film may become brittle at colder temperatures. Always protect the Water Soluble Packet from exposure to moisture or high humidity. Do not handle the WSPs with wet hands. Reseal the protective outer bags immediately after the packets are removed.

### KEEP OUT OF REACH OF CHILDREN

Avoid contact with eyes and skin. See Safety Data Sheet for additional information.

## STORAGE AND DISPOSAL

Keep from freezing. If product is frozen, it could become brittle. Always reseal the outer bag after inner packets are removed. Dispose of residue, container and rinsate according to local, state, and federal laws.

**This product does not require a hazard warning label in accordance with GHS criteria.**

## CONDITIONS OF SALE

All conditions and warranties rights and remedies implied by law or arising in contract or tort whether due to the negligence of BASF Australia Ltd ABN 62008437867 or otherwise are hereby expressly excluded so far as the same may legally be done provided however that any rights of the Buyer pursuant to non-excludable conditions or warranties of the Competition and Consumer Act 2010 or any relevant legislation of any State are expressly preserved but the liability of BASF Australia Ltd or any intermediate Seller pursuant thereto shall be limited if so permitted by the said legislation to the replacement of the goods sold or the supply of equivalent goods and all liability for indirect or consequential loss or damage of whatsoever nature is expressly excluded. This product must be used or applied strictly in accordance with the instructions appearing hereon. This product is solely sold for use in Australia and must not be exported without the prior written consent of BASF Australia Ltd.
