

#### RE-ENTRY PERIOD

DO NOT enter treated areas until the spray has dried unless wearing cotton overalls buttoned to the neck and the wrist (or equivalent clothing) and chemical resistant gloves. Clothing must be laundered after each day's use.

#### PROTECTION OF WILDLIFE, FISH, CRUSTACEANS AND ENVIRONMENT

Toxic to Aquatic organisms. DO NOT contaminate streams, rivers or waterways with the chemical or used containers.

#### STORAGE AND DISPOSAL

Keep out of reach of children. Store in the closed, original container in a cool, well-ventilated area. Do not store for prolonged periods in direct sunlight. Triple-rinse containers before disposal. Add rinsings to spray tank. Do not dispose of undiluted chemicals on site. If recycling, replace cap and return clean containers to recycler or designated collection point. If not recycling, break, crush, or puncture and deliver empty packaging to an approved waste management facility. If an approved waste management facility is not available, bury the empty packaging 500 mm below the surface in a disposal pit specifically marked and set up for this purpose, clear of waterways, desirable vegetation and tree roots, in compliance with relevant local, state or territory government regulations. Do not burn empty containers or product.

#### SAFETY DIRECTIONS

Will irritate the eyes. Avoid contact with eyes. When opening the container and preparing spray and using the prepared spray, wear cotton overalls buttoned to the neck and wrist (or equivalent clothing), a washable hat and, elbow-length PVC gloves. After each day's use, wash gloves and contaminated clothing. Wash hands after use.

#### FIRST AID

If poisoning occurs, contact a doctor or Poisons Information Centre. Phone Australia 131126.

#### SAFETY DATA SHEET

Additional information is listed in the Safety Data Sheet.

#### CONDITIONS OF SALE

All conditions and warranties rights and remedies implied by law or arising in contract or tort whether due to the negligence of BASF Australia Ltd ABN 62008437867 or otherwise are hereby expressly excluded so far as the same may legally be done provided however that any rights of the Buyer pursuant to non-excludable conditions or warranties of the Competition and Consumer Act 2010 or any relevant legislation of any State are expressly preserved but the liability of BASF Australia Ltd or any intermediate Seller pursuant thereto shall be limited if so permitted by the said legislation to the replacement of the goods sold or the supply of equivalent goods and all liability for indirect

#### DIRECTIONS FOR USE

##### RESTRAINTS

DO NOT apply through any type of irrigation system or ultra-low volume spray system.

DO NOT apply by aerial application.

DO NOT apply to turf under heat or moisture stress.

DO NOT apply to waterlogged soil.

##### SPRAY DRIFT RESTRAINTS

DO NOT apply with spray droplets smaller than a MEDIUM spray droplet size category according to nozzle manufacturer specifications that refer to the ASAE S572 Standard or the BCPC Guideline.

DO NOT apply when wind speed is less than 3 or more than 20 kilometres per hour as measured at the application site.

DO NOT apply during surface temperature inversion conditions at the application site.

Users of this product **MUST make an accurate written record** of the details of each spray application within 24 hours following application and **KEEP** this record for a minimum of 2 years. The spray application details that must be recorded are: **1** date with start and finish times of application; **2** location address and area sprayed; **3** full name of this product; **4** amount of product used per hectare and number of hectares applied to; **5** turf species/situation and weed/pest; **6** wind speed and direction during application; **7** air temperature and relative humidity during application; **8** nozzle brand, type, spray angle, nozzle capacity and spray system pressure measured during application; **9** name and address of person applying this product. (Additional record details may be required by the state or territory where this product is used.)

##### MANDATORY NO-SPRAY ZONES

No downwind mandatory no-spray zones are required for ground application of MIDAS to turf.

CROP	DISEASE	RATE	CRITICAL COMMENTS
Turf	Dollar spot ( <i>Sclerotinia homeocarpa</i> )	780 g/ha in a minimum of 400L water/ha	Spray when conditions favour disease, generally from September to March. Apply a second MIDAS spray 14 to 28 days later. Use shorter intervals when conditions favour disease development.  DO NOT apply more than 2 consecutive sprays of MIDAS. Alternate to other effective fungicides before re-applying MIDAS.  DO NOT apply more than 4 sprays of MIDAS per season to turf.

Net Contents:  
**1 Kg**

**NOT TO BE USED FOR ANY PURPOSE, OR IN ANY MANNER, CONTRARY TO THIS LABEL UNLESS AUTHORISED UNDER APPROPRIATE LEGISLATION.**

#### WITHHOLDING PERIODS

DO NOT graze treated areas or feed turf clippings from treated areas to animals, including poultry.

#### GENERAL INSTRUCTIONS

##### MIXING

Partly fill the spray tank with water and add the required amount of product while stirring. If required, add compatible products and agitate thoroughly. Complete filling the tank with agitators in motion. Agitation must continue before and during spraying. If tank mixing with other water dispersible granule (WG) or wettable powder (WP) formulations, ensure they are mixed in well before adding emulsifiable concentrate (EC) or suspension concentrate (SC) products. WP formulations should be pre-mixed separately prior to adding to the spray tank.

##### APPLICATION

Apply MIDAS in sufficient water (min. 400L water/ha) ensuring even coverage and thorough penetration of the foliage, including the crown. Increase water volumes in high cut turf as appropriate. Avoid overlapping sprays.

##### COMPATIBILITY

MIDAS is compatible with a wide range of agricultural chemicals. A jar test with local water should be conducted before using any new tank mixtures with MIDAS. For further information on compatibility please contact your local reseller or BASF representative.

##### FUNGICIDE RESISTANCE WARNING

GROUP **7** FUNGICIDE

MIDAS Turf Fungicide is a member of the Succinate Dehydrogenase Inhibitor (SDHI) group of fungicides. For fungicide resistance management, MIDAS Turf Fungicide is a Group 7 fungicide. Some naturally-occurring individual fungi resistant to MIDAS Turf Fungicide and other Group 7 fungicides may exist through normal genetic variability in any fungal population. The resistant individuals can eventually dominate the fungal population if these fungicides are used repeatedly. These resistant fungi will not be controlled by MIDAS Turf Fungicide or other Group 7 fungicides, thus resulting in a reduction in efficacy and possible yield loss. Since the occurrence of resistant fungi is difficult to detect prior to use, BASF Australia Ltd accepts no liability for any losses that may result from the failure of MIDAS Turf Fungicide to control resistant fungi.
