

The proven performer
you can bank on

InVigor® T 4510

**TRIAZINE
TOLERANT**

Reap the rewards of
switching from OP TTs to
the exceptional reliability
of this versatile variety

InVigor® T 4510 has been offering growers solid and dependable performance across a range of growing regions since it was first trialed in 2013. That's why it's one of the most popular TT hybrids on the market.

So why choose InVigor T 4510?

- Higher yields and gross margins than other well-established TT hybrids.
- Great financial returns when compared to farmer-retained TTs.
- Ideally suited to low-medium to medium rainfall areas – offering solid results in an average season and great results in a good one.

Plus, enjoy all the MySeed program benefits:

Sow and grow this top performing InVigor variety and don't pay a cent until **Nov. 30, 2022**. See your agent or visit crop-solutions.basf.com.au/seed/myseed

Our seed replacement guarantee** to help you offset risk in your program.

** Terms and conditions apply.
Visit crop-solutions.basf.com.au/seed/myseed for details.

Variety profile:

Herbicide tolerance:	Triazine Tolerant
Flowering maturity:	Early-Mid (4.5)
Blackleg rating:	R (with ILeVO® or Jockey® Stayer®) MR (with EverGol® Xtend)
Blackleg grouping:	BF
Alternative to:	Hyola® 559TT, Hyola 650, 44T02, HyTTec® Trophy, SF Turbine, SF Ignite, DG 670, Stingray, Bonito, Wahoo
Plant height:	Medium
Lodging resistance:	Good
PodGuard®:	No

InVigor

InVigor[®] T 4510

A productive alternative to OPs

A profitable alternative to OPs

Still growing OP TTs? There's enormous value in switching to InVigor T 4510. The average gains in yield and profit shown here are based on three years of NVT data comparing Bonito with InVigor T 4510.

	NSW	SA	VIC	WA
EXTRA YIELD/ha =	360 kg	350 kg	400 kg	380 kg
EXTRA PROFIT/ha =	\$137	\$131	\$159	\$148

Yields based on long-term mid NVTs 2016–18. Profitability calculations based on these assumptions: canola grain delivery price \$550/t, hybrid seed cost \$70/ha sown at 2.5 kg/ha, farmer-retained Bonito graded and treated cost \$10/ha sown at 3 kg/ha. Additional Bonito cost of \$5/t EPR on grain delivery has not been factored in.

Seed treatment options:

Poncho Plus Insecticidal Seed Treatment A highly effective broad-spectrum insecticide

+ either:

leVO Seed Treatment Fungicide A powerful fungicide for protection against blackleg

or

Jockey Stayer Blackleg suppression

or

EverGol Xtend Advanced control of Rhizoctonia and Fusarium
