

Poncho® Plus

Insecticidal Seed Treatment

FACT SHEET

Poncho® Plus Insecticidal Seed Treatment in canola

Advanced protection for emerging seedlings

Poncho® Plus offers a much broader spectrum of control than any other insecticidal seed treatment. It combines two powerful active ingredients that complement each other to protect canola against a range of the most damaging pests for up to four weeks after sowing.

- The combined control of two powerful insecticides.
- The broadest spectrum of pest control available in a canola seed treatment.
- Registered for all four of the most damaging invertebrate pests in canola.
- Up to four weeks protection for emerging seedlings.
- Excellent physical compatibility with other seed treatments (check specific mixes with your BASF representative).

Application rate

500 mL/100 kg seed

WHPs

Harvest

Not required when used as directed.

Grazing and cutting for feed

8 weeks.

Poncho® Plus

Insecticidal Seed Treatment

Cutworm control

Mean mortality

Averaged results from four trials:
W10-353, W10-354, W11-397, W11-398

Wireworm control

Increase in plant stand

Averaged results from four trials:
W08-235, W09-230, W09-247, W09-342

Aphid control

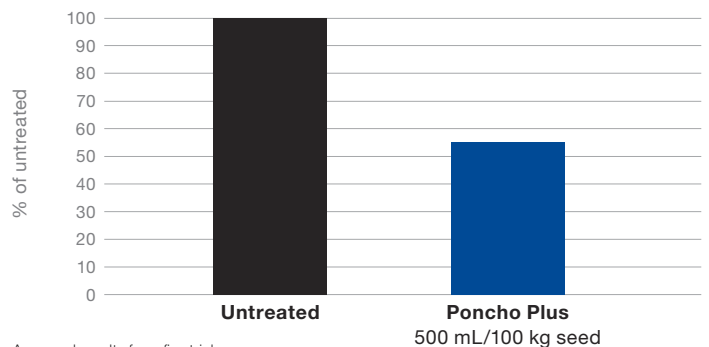

Population reduction

Counts taken 7–61 DAE.
Averaged results from 11 trials:
W10-430, W10-194, W10-195, W10-196, W10-197, W10-199,
W10-202, W10-226, W10-227, W10-231, W10-237

Red-legged earth mite control

Population reduction

Averaged results from five trials:
W08-224, W09-253, W09-271, W09-272, W09-245

Compatibility

Poncho Plus is compatible with a range of other seed treatments, including:

ILeVO

Cosmos®

Jockey* Stayer*

Maxim XL

EverGol* Xtend

Resistance management

Both of the active ingredients in Poncho Plus belong to the neocotinoid class of insecticides and Poncho Plus is classified as a **Group 4A** insecticide. When additional control measures are required, avoid repeated use of insecticides with the same mode of action.

Protection of bees and other insect pollinators

Poncho Plus is highly toxic to bees and should only be used as a seed treatment. DO NOT perform seeding operations under very dry or windy conditions to avoid exposing pollinators to treated seed dust.

For more information on Poncho® Plus, scan this QR code or contact your local BASF representative on **1800 558 399**
