

The latest high-performance hybrid with enhanced yield protection

InVigor[®] LT 4030P

Top-end TT hybrid yield potential with flexible weed control

Our latest TT hybrid with LibertyLink[®] offers an upgrade both in yield potential and post-emergence weed control options now with Liberty[®].

So why choose InVigor LT 4030P?

Extra yield potential

- Trials show InVigor LT 4030P consistently out-yields popular TT hybrids in low to medium rainfall areas

Extra yield protection

- The option of using LibertyLink[®] technology
- Improved control of annual ryegrass with resistance to glyphosate and clethodim
- PodGuard protection delivers more grain to the bin

Extra harvest flexibility

- PodGuard makes harvest timings much less critical
- Windrow later – up to 90% colour change – or direct head with much less risk of shattering

Variety profile:

Herbicide tolerances:	LibertyLink + TT
Maturity:	Early–mid (4.0)
Blackleg rating:	R (with ILeVO [®])
Blackleg group:	B
PodGuard [®] :	Yes
Height:	Medium
Genetically modified:	Yes

VIGOUR:

OIL:

0 5 10

InVigor[®] LT 4030P

Superior TT hybrid yields

Trial results show that growers can choose InVigor LT 4030P ahead of alternative TT hybrids and gain extra yield even if they don't use the extra protection of PodGuard to delay harvest.

Added flexibility at harvest

InVigor LT 4030P has even more resilient mature seed pods than previous PodGuard varieties, allowing growers to delay swathing or direct head with extra confidence.

The best seed comes with the best seed treatments:

Poncho[®] Plus

Insecticidal Seed Treatment

A highly effective broad-spectrum insecticide

ILeVO[®]

Seed Treatment Fungicide

A powerful fungicide for protection against blackleg

Grow with confidence

Replace MySeed[™]

You're covered** for the first 45 days if your crop fails to establish and you have to re-sow.
